

T Y P I S T™

The Ultimate Typing Machine™

The background is a vibrant red. Scattered across the upper half are various letters and symbols in a lighter red, semi-transparent font, appearing to float or be typed. In the lower right, a close-up shows a person's hand with fingers positioned over a black, rectangular electronic device. The device has a series of horizontal ridges on its top surface. The text is overlaid on the left side of the image, partially obscured by the hand and device.

CAERE®

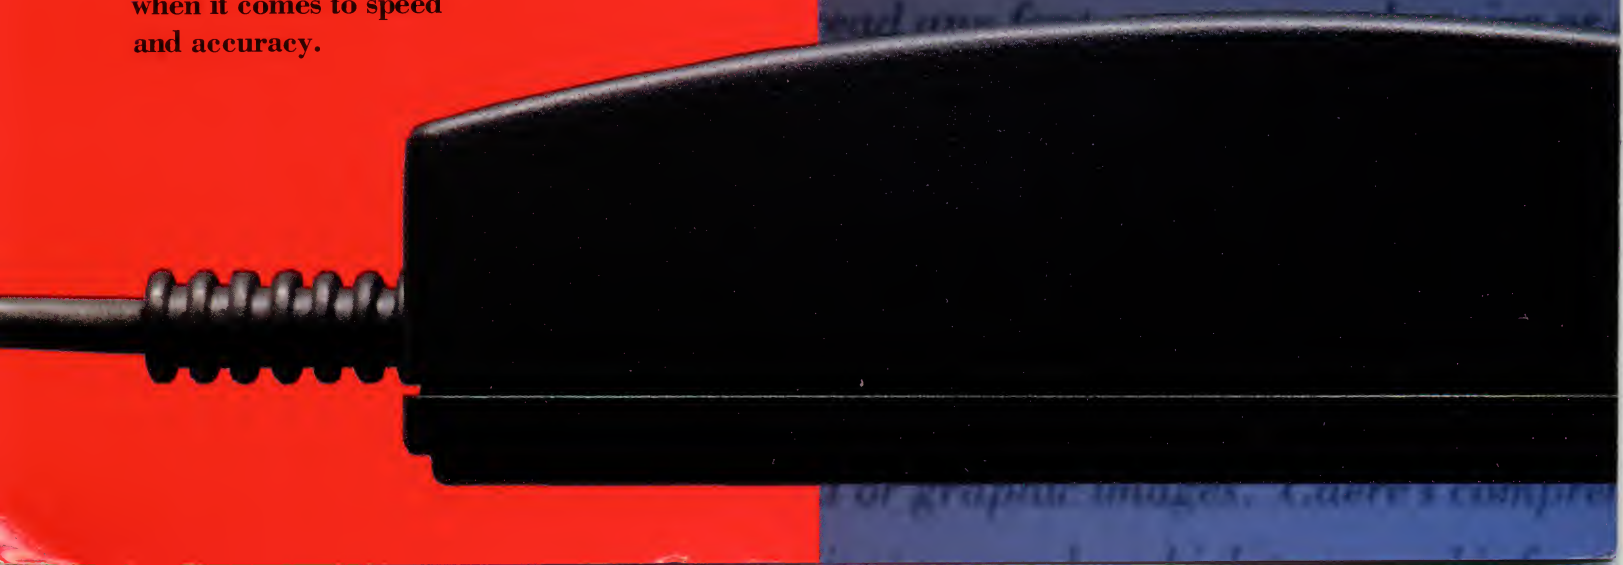

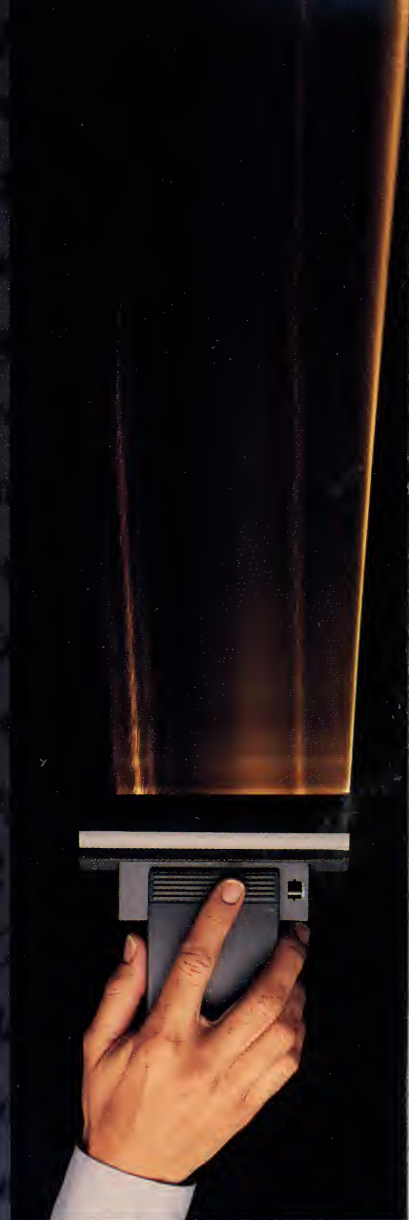

TYPYST™

The Personal Scanner™ for Macintosh and PC Compatible Computers.

The *Typist* from Caere gives you all the power of a small typing pool, right at your desktop. Designed to be the ultimate typing machine, the *Typist* lets you enter rows of numbers or columns of text directly into your Macintosh® or PC compatible word processor, spreadsheet or database – just like you typed them yourself – simulating your keyboard in every way.

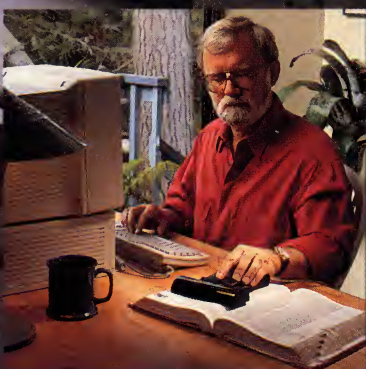

Think about it!

Now you can scan any document, whatever the font, font size or column format, and enter it directly into any file – with greater speed and accuracy than ever before possible. Designed as a compact peripheral that works at your side, the *Typist* functions like your very own personal assistant, capable of typing 500 words per minute. Scanning at 2 column inches per second. And because the *Typist* uses Caere's proprietary AnyFont™ technology, it always delivers when it comes to speed and accuracy.

Caere's advanced Macintosh and MS-DOS products allow you to prepare for
t in time. Caere Corporation has developed the most innovative OCR softwa

With the *Typist* you can enter rows of numbers or columns of text from periodicals, newspapers or journals, directly into your Macintosh or PC compatible word processor, spreadsheet or database – just like a keyboard, only faster. The *Typist* is ideally suited for business, professional or home use.

Beyond Good Design.

Designed to be your personal assistant, the *Typist* is a sleek, ergonomic peripheral that requires no special training or support. More than a typical hand scanner, which is generally suited to scan graphic images but limited when it comes to text and numbers, the *Typist* lets you do it all – accurately, quickly and easily.

One button controls scanning. Press the button and automatically set contrast prior to scanning photos or low resolution images. The *Typist*'s 300 dpi resolution insures the most accurate scan – every time.

Use the *Typist* when preparing business reports, academic papers or presentations. Enter information directly into your most critical documents – effortlessly. Lengthy reports and desktop published documents can be processed in a fraction of the time – even legal contracts are now only a scan away.

Sophisticated design. Powerful technology. The *Typist* is the one advanced peripheral device that will immediately improve the way that you work – in the office, at school or in the home.

Put the *Typist* to work for you.

To learn more about the *Typist* and how it can be of assistance to you – personally – get a complete demonstration from one of Caere's dealers.

CAERE®

The Typist is capable of typing 500 words per minute and gives you all of the power of a small typing pool, right at your desktop.

A display window lets you view the text, numbers or graphics being scanned.

Specially designed rollers keep you on track, perfectly aligned, even when scanning sideways at 2" per second.

Automatic stitching during horizontal scanning insures the completion of accurate, perfectly configured text – every time.

The *Typist* is a high resolution 300 dpi personal scanner capable of typing 500 words per minute directly into your software application just like a keyboard, only faster.

One button lets you control all scanning; the advanced automatic contrast requires only a single click – especially helpful when scanning photos and Xerox® copies.

The *Typist* includes image capture software that supports industry standard PCX, TIFF and PICT formats for output.

The *Typist* supports all Macintosh and PC compatible word processors, spreadsheets and database applications, including WordPerfect®, Microsoft® Word™, Lotus® 1-2-3, Excel™, dBase™ and FileMaker® II.
